KS2

- **Choose Active Transport (Government of Western Australia)**

The Choose Active Transport teachers' resource is intended for years K-7 (YR-Y6) and provides developmentally appropriate classroom activities aimed at encouraging students to use active transport - walk, cycle, scooter or take public transport - to and from school. The resources are full of whole school curriculum planning and ideas in all subject areas but with a strong emphasis on literacy and numeracy. Bear in mind it is written in line with the Australian curriculum and the Australian climate and infrastructure. <http://www.beactive.wa.gov.au/index.php?id=1268>

- **Go-Learn Public Transport education resources**

Go-Ahead's online education programme is aimed at helping children and young people improve their knowledge of public transport to become confident and informed travelers. Exercises include whole-class and group discussions, individual written tasks and opportunities to carry out research. Word glossaries and suggestions for further study are also provided. Maths activities available also.
