

Walk with Wheels Week Explorer Challenge

Colour in, circle or tell an adult which of the following you find while you walk, wheel, scoot or cycle during Walk with Wheels Week.

Can you find something that....

 makes a quieter sound	 feels rough
 is made of water	 gives you shade
 makes a louder sound	 is moving
 smells different	 feels smooth

Remember, you don't have to find them all to enter the competition!

If you discover something different or interesting on your journey draw a picture or write about it here.
